OCTOBER 26-28, 2005

SPACE TELESCOPE SCIENCE INSTITUTE
 3700 San Martin Drive • Baltimore, MD 21218
www.stsci.edu/institute/conference/cal05
 Abstract submission deadline: August 12, 2005
 Early registration deadline: September 16, 2005

The workshop will feature recent advances in the understanding and analysis of data from the HST instruments ACS, NICMOS, STIS, WFPC2, and FGS. Other topics to be covered include the calibration status of COS and WFC3, cross-calibration efforts between HST, Spitzer, and JWST, archive enhancements, and software developments such as MultiDrizzle and PyRAF. The workshop is intended to foster sharing of information and calibration techniques between observers, instrument developers, and instrument support teams.

ORGANIZING COMMITTEE

Santiago Arribas, John Biretta, Linda Dressel, Paul Goudfrooij (Chair), Tony Keyes, Jessica Kim Quijano, Anton Koekemoer, John MacKenty, Dixie Shipley, Marco Sirianni
