

Welcome to the Space Telescope Science Institute's Public Lecture Series

- Your host: Dr. Frank Summers
- Lithographs on table
 - Please take one per person

TONIGHT

Seeing Stars at the White House

Vanessa Thomas & Max Mutchler

November 3, 2009

8 PM

STScI Auditorium

Upcoming Talks

- December 1, 2009 – Rachel Osten, The Uses of Stellar Flares
- January 5, 2010 – TBD
- February 2, 2010 – Ray Lucas, Gravitational Lensing

Web Site & Webcast

- Google “hubble lecture”
- <http://hubblesite.org/go/talks>
- List of upcoming speakers
- Link to current webcast
- Links to previous webcasts

Hubble Public Talks

Upcoming Lectures

Date	Speaker
March 7, 2006	Speaker: Dr. Adam Riess, STScI Title: Dark Energy and the Fate of the Universe
April 4, 2006	Speaker: Dr. Massimo Robberto, STScI Title: Star Formation in the Orion Nebula
May 2, 2006	Speaker: Dr. Keith Noll, STScI Title: The Kuiper Belt

Upcoming Hubble Public Talk

Speaker: Dr. Frank Summers, STScI
"Astronomy Visualization: The State of the Art"

Broadcast will begin at 8:00 pm (EST), February 7, 2006
Replays of this broadcast will be available at 10:30 am (EST),
February 7, 2006

Speaker: Ian Jordan, STScI

December 6, 2005

"Distant Screens: From Extrasolar Planets to Eclipsing the
North Star"

Servicing Mission 4

A successful mission to upgrade and restore Hubble has ended. New images are were released Sept. 9.

[Visit our SM4 web page.](#)

A frenzy of activity takes place between the servicing mission and the first new Hubble pictures. Find out how scientists and engineers get Hubble ready to go to work.
