Hi Tony,

I made a mistake with my exposure time parameters. Can I please revert back to the old time allocations:
1183 - 2.7 hours
1294 - 9.3 hours

Sorry for my confusion,
Christine

I would like to decrease the allocation for 1383 from 2.7 hours to 2.23 hours and increase the allocation for 1294 from 9.3 hours to 9.77 hours.
