Dear Bryan and Tony,

I confirm the transfer of the extra 0.3 hours

Thank you

Gillian

Subject: Moving time between GTOs

Tony,

In order to accommodate the increase in total charged time for the Echeclus MRS observations in Dean Hines' GTO program (#1272), I am requesting that 0.3 hours be moved from Gillian Wright to Dean Hines. The original time allotment for these observations, 2.5 hours, was supplied by Gillian to Dean, but an increase is now necessary due to the change in overheads since the first move was made (see original emails from July 27th).

Thanks!

-Bryan
