Dear Tony,

I have checked with Mark the status of the time share for HH211 - the exposure time has indeed increased :

The original 19.90 hrs allocated time has been extended to 22.75 hrs, which includes 7 hrs (originally 4.9 hrs) from Dr. McCaughrean GTO and additional 0.75 hrs from Wright GTO (originally 15 hrs) .

Please can you change the allocations according to the above for us.

Thank-you
Gillian

PS. And I will send updates for all the others soon
