Your program coordinator and contact scientist have been notified of your phase 2 submission, and you will be contacted by your program coordinator shortly to notify you whether or not your proposal has been accepted. Submissions which have outstanding unexplained diagnostics or which do not meet their TAC orbit allocation may not be accepted.

Submission File: 1275-JwstSubmission-003.aptx

Comments:

I resubmit with version APT 25.4.0.1

The charged time (3,74 hrs) is lower than the allocated charged time (7,40 hours) because only PSO J318 has been included (corresponding to observation ID : Wright0009, Wright0010, Wright0050).

The two other targets (GU Psc b and 2MASS J2236+4751 b; observation ID Wright003, Wright0005 and Wright0006) have been added to the APT file from NIRCAM team (K. Hodapp).
