

Unconference session 3: Statistical measures (SED fitting)

For this session, you will not need to install anything locally.

All the material will be shared via google-collab and this webpage:

<https://stsci-mos-sed.github.io/>

The session on Tuesday will tackle SED fitting topics from a "customer" perspective, while on Thursday, we will talk about SED fitting from a "developer" perspective.

More details about the two sessions will be posted on the webpage.
