

HST UV Working Group

Sally Oey

University of Michigan

HST UV WG: Charge

- 600 – 800 orbit DD program
- Ultraviolet legacy dataset
- Star formation and associated stellar physics
- Solicit input and recommend a program by
Jan 20, 2019

HST UV WG: Membership

- Sally Oey, Michigan (Chair)
- Nate Bastian, Liverpool John Moore
- Paul Crowther, Sheffield
- Andy Fox, STScI
- Jay Gallagher, Wisconsin
- Ana Gomez, Complutense de Madrid (STUC)
- Claus Leitherer, STScI
- Christy Tremonti, Wisconsin
- Neill Reid, STScI (ex officio)
- Tom Brown, STScI (ex officio)

Community Survey

- Solicit opinions and input
- Solicit 1-page suggestions
- Posted:
 - 4-question survey
 - Charge
 - 2 example programs
- Closes Dec 7

HST UV WG: Challenges

- Science “volume problem”
 - Dataset not straightforward
- Political
 - Specific science focus
 - Mandated by Director, but need buy-in
- “Proposal” problem
 - Submitted ideas are not proposals
 - Think “white papers”

HST UV WG

Need your help managing the “problems”

Any input welcome!
